

MOTORCYCLE & ATV HYDRAULIC JACK 115-358MM 680KG

Brand: AWTOOLS
Reference: AW19825
EAN: 5903678626280

27kg
WAGA

KEY FEATURES

- Frame made of solid, thick-walled cast steel profiles, with a powder-coated finish.
- Textured and rubberised saddle pads protect the vehicle frame from damage and prevents from slipping.
- Equipped with a hydraulic jack for effortless lifting.
- Two foot pedals for easy and quick lifting up and down. 3-level adjustable working height.
- T-shaped handle for easy positioning and maneuvering.
- Equipped with 2 fixed wheels and 2 swivel castors, so the jack can be easily moved around.
- Can be folded down into a flat unit for convenient storage in limited space.
- Suitable for servicing, replacing wheels, working on suspension and maintaining running gear.
- Great tool for raising and lowering motorcycles, ATVs, tractors and other small vehicles in workshops and garages.
