

LPG/ PROPANE REGULATOR W/ PRESSURE GAUGE

Brand: AWTOOLS
Reference: AW13920
EAN: 5903678629656

8mm
MM

25bar
PRESS

640g
WAGA

KEY FEATURES

- Durable metal and polycarbonate construction ensures long, trouble-free service-life.
- Features a pressure gauge with a silicone guard and a dual psi/ bar scale for accurate pressure readings.
- Smooth gas regulation knob allows for a precise control of gas flow or pressure.
- Used to reduce the pressure of gas in the cylinder to a lower pressure.
- Works perfectly when cutting, welding, soldering, heating, etc.
- Used with blow torches, heating torches, site heaters, welding equipment, and other equipment when a high heat output is required.

TECHNICAL DATA

- Inlet pressure: 25 bar.
- Flow rate: 5 m3/h.
- Hose diameter: 8 mm.
- Inlet thread: W21.8 x 1/4".
- LHOutlet thread: G3/8.
- Weight: 640 g.
