

SDS-PLUS QUADRO XTREME DRILL BIT 12X310MM BLACK LINE

Brand: AWTOOLS
Reference: AW43645BL
EAN: 5903678627515

12mm
MM

190g
WAGA

KEY FEATURES

- Combines a hardened carbon steel body with a YG8C carbide alloy tip for enhanced hardness, longer life, and better performance.
- Four-flute design and self-centering drill tip allows for precise drilling, eliminating the need for center punching.
- Spiral groove shape for easy chip removal.
- Designed for drilling holes in brick, concrete, reinforced concrete, stone, and other hard materials.
- Grooved SDS-plus shank prevents drill bits from falling out and allows for faster replacement.

- For use with rotary hammer drills and impact hammers.

TECHNICAL DATA

- Diameter: 12mm.
- Total length: 310mm.
- Working length: 225mm.
- Weight: 190g.
