

OSCILLATING MULTI-TOOL BIM BLADE 10MM X 35MM WOOD/ METAL

Brand: AWTOOLS
Reference: AW54030
EAN: 5903678629175

40g
WAGA

KEY FEATURES

- Made of hardened BiM steel, coated with a black anti-wear coating for durability and longer life.
- Combine laser-welded cutting teeth welded to a blade body.
- Surface engraved with scale lines, which makes it easy to observe the depth of cut.
- Direct power transmission.
- Tool-free quick-change design.

- Compatible with most brands of oscillating tools on the market with a universal open-back mounting system.
- Suitable for cutting in aluminium, wood, wood with nails, and plasterboard.
- Great for installations, repairs, and maintenance work.

TECHNICAL DATA

- Dimensions: 10 x 35 mm.
- Weight: 40g.
