KEY FEATURES

- Made from abrasive polyester-cotton cloth flaps, resin-bonded with zirconium oxide for reliable and consistent performance.
- Flaps are securely mounted on a durable fibreglass backing pad, reinforced with a chrome-plated metal centre for added strength and stability.
- Angled design improves access and control when working in tight or hard-to-reach areas.
- Suitable for use on a wide range of materials, including stainless steel, mild steel, hardened steel, and high-grade alloys. Designed for compatibility with 125 mm angle grinders featuring a 22.23mm bore.
- Offers versatility for both professional and DIY use.
