

SDS-PLUS QUADRO XTREME DRILL BIT 10X 310MM BLACK LINE

Brand: AWTOOLS
Reference: AW43636BL
EAN: 5903678627447

10mm
MM

160g
WAGA

KEY FEATURES

- Combines a hardened carbon steel body with a YG8C carbide alloy tip for enhanced hardness, longer life, and better performance.
 - Four-flute design and self-centering drill tip allows for precise drilling, eliminating the need for center punching.
 - Spiral groove shape for easy chip removal.
 - Designed for drilling holes in brick, concrete, reinforced concrete, stone, and other hard materials.
 - Grooved SDS-PLUS shank prevents drill bits from falling out and allows for faster replacement.
- For use with rotary hammer drills and impact hammers.

TECHNICAL DATA

- Diameter: 10mm.
- Total length: 310mm.
- Working length: 280mm.
- Weight: 160g.
