KEY FEATURES

- Made of hardened and tempered CrV steel with corrosion-resistant chrome plating and a polished finish.
- Combines an open-end spanner on one side with a ring spanner on the other.
- Both ends are offset from the shaft at a 15-degree angle to provide better clearance.
- With 72 teeth and 5 degree action arc, it delivers high torque, while the flex head allows work in hard to reach areas.
- Clear size markings allow quick identification.

- Ideal for tightening and loosening bolts and nuts.
- Suitable for mechanical work and automotive repairs.
