

SEGMENTED DIAMOND BLADE 300X32MM

Brand: AWTOOLS
Reference: AW45407
EAN: 5903678616588

300mm
MM

1.3kg
WAGA

KEY FEATURES

- High-quality steel body for exceptional durability and resistance to deformation.
- Diamond powder coating embedded in a metal binder and laser-welded for maximum strength.
- Highly concentrated diamond segments ensure long blade life and high cutting performance.
- Expansion grooves improve cooling, enabling dry operation without water.
- Suitable for cutting concrete, reinforced concrete, granite, marble, stone, and brick.
- Recommended for demanding applications requiring deep, single-pass cuts.
- Compatible with most angle grinders and designed for dry cutting.

TECHNICAL DATA

- Type: segmented, deep cut.
- Diameter: 300mm.
- Bore: 32mm.
- Weight: 1.3kg.
