

## THREADING TAP SET M7X1.00 3PCS

**Brand:** AWTOOLS  
**Reference:** AW20464  
**EAN:** 5903678628864

**90g**  
WAGA

### KEY FEATURES

- Made from hardened alloy steel, providing high resistance to wear and mechanical damage.
- Square shaft of the tap fits into a holding tool, such as a tap wrench.
- Precision-ground flutes direct chips forward in the threading direction, reducing clogging and preventing the tap from jamming in the hole.
- Designed for cutting new internal threads or restoring damaged threads in pre-drilled holes.
- Suitable for machining stainless steel, alloy steels, cast iron, and non-ferrous metals.
- Ideal for workshop, maintenance, and service applications requiring precise external threading of metal components.
- Set includes taper, plug and bottoming style.

### TECHNICAL DATA

- Quantity: 3.
- Size: M7 x 1.00mm.
- Weight: 90g.
