

THREADING TAP SET M18X2.00 3PCS

Brand: AWTOOLS
Reference: AW20482
EAN: 5903678629014

260g
WAGA

KEY FEATURES

- Made from hardened alloy steel, providing high resistance to wear and mechanical damage.
 - Square shaft of the tap fits into a holding tool, such as a tap wrench.
 - Precision-ground flutes direct chips forward in the threading direction, reducing clogging and preventing the tap from jamming in the hole.
 - Designed for cutting new internal threads or restoring damaged threads in pre-drilled holes.
 - Suitable for machining stainless steel, alloy steels, cast iron, and non-ferrous metals.
- Ideal for workshop, maintenance, and service applications requiring precise external threading of metal components.
 - Set includes taper, plug and bottoming style.

TECHNICAL DATA

- Quantity: 3.
- Size: M18 x 2.00mm.
- Weight: 260g.
