

THREADING TAP SET M20X2.50 3PCS

Brand: AWTOOLS
Reference: AW20486
EAN: 5903678629052

410g
WAGA

KEY FEATURES

- Made from hardened alloy steel, providing high resistance to wear and mechanical damage.
- Square shaft of the tap fits into a holding tool, such as a tap wrench.
- Precision-ground flutes direct chips forward in the threading direction, reducing clogging and preventing the tap from jamming in the hole.
- Designed for cutting new internal threads or restoring damaged threads in pre-drilled holes.
- Suitable for machining stainless steel, alloy steels, cast iron, and non-ferrous metals.
- Ideal for workshop, maintenance, and service applications requiring precise external threading of metal components.
- Set includes taper, plug and bottoming style.

TECHNICAL DATA

- Quantity: 3.
- Size: M20 x 2.50mm.
- Weight: 410g.
