

ADJUSTABLE OIL FILTER WRENCH 80-105MM

Brand: AWTOOLS
Reference: AW17111BL
EAN: 5903678635176

875g
WAGA

KEY FEATURES

- Made from high-quality CrMo steel with a black oxide finish for enhanced corrosion resistance and long-lasting durability.
- Specially designed mechanism enables bidirectional operation (clockwise and counterclockwise) without removing the tool from the filter, making work faster and more efficient.
- Compatible with both a 1/2" ratchet and a 22 mm wrench, offering greater versatility and ease of use.
- Designed for removing oil filters of various sizes used in vehicle engines and industrial machinery.
- Adjustable operating range allows it to fit a wide variety of filter types.
- Ideal solution for professional mechanical workshops and automotive service centres.

TECHNICAL DATA

- Size: 80-105mm.
- Drive: 1/2".
- Weight: 875g.
