

HAND-OPERATED OIL EXTRACTOR PUMP 9L

Brand: AWTOOLS
Reference: AW15965
EAN: 5903678636609

3kg
WAGA

KEY FEATURES

- Made of high-quality PP material resistant to oil and other operating fluids, ensuring durability and reliable long-term use.
- Equipped with a hand-operated vacuum pump with a footrest, it creates a vacuum inside the tank, enabling efficient suction of fluids through the probe.
- Integrated handle, lightweight, and compact design make the device easy to transport and store.
- Designed for the safe extraction of used engine oil, hydraulic fluids, and other operating fluids from engines, gearboxes, and tanks.
- Ideal for servicing trucks, agricultural machinery, generators, and other vehicles and mechanical equipment.

TECHNICAL DATA

- Tank capacity: 9.
- LTotal height: 600mm.

- Base diameter: 230x315mm.
- Weight: 3kg.
- Set includes: 1x pump1x rigid copper suction probe 60cm4x flexible plastic suction probe 90cm.
