KEY FEATURES

- Body made of lightweight yet durable aluminium with a titanium-coated anodised finish.
- Flexible, replaceable blade made of hardened stainless steel with a satin finish provides excellent corrosion resistance and ensures precise application and smoothing.
- Rounded blade edges help create a perfectly smooth surface while minimising the risk of scratches or marks.
- Durable plastic end caps securely hold the blade in place and protect the profile's interior from dust and dirt.
- Ergonomic handle with finger rests offers a comfortable, secure grip, reducing fatigue during extended use.
- Perfect for professional plastering, skim coating, smoothing wall and ceiling surfaces, and filling imperfections to achieve a high-quality finish.
- Comes in a plastic transport case.
- Set includes: Quantity: 7pcs 1x skimming blade 250mm 1x skimming blade 400mm 1x skimming blade 600mm 1x skimming blade 800mm 1x skimming blade 1000mm 1x skimming blade handle 15x8cm 1x telescopic pole 102-185cm 1x transport case 108x36x11cm Set weight: 9.9kg.
