KEY FEATURES

- Body made of lightweight yet durable aluminium with a titanium-coated anodised finish.
- Flexible, replaceable blade made of hardened stainless steel with a satin finish provides excellent corrosion resistance and ensures precise application and smoothing.
- Rounded blade edges help create a perfectly smooth surface while minimising the risk of scratches or marks.
- Durable plastic end caps securely hold the blade in place and protect the profile's interior from dust and dirt.
- Ergonomic handle with finger rests offers a comfortable, secure grip, reducing fatigue during extended use.
- Perfect for professional plastering, skim coating, smoothing wall and ceiling surfaces, and filling imperfections to achieve a high-quality finish.
