450g
WAGA

KEY FEATURES

- Lightweight, rigid pressboard body with a plastic handle, resistant to cracks and burns.
- Supplied with a protective, replaceable, clear lens and a filter lens for UV/IR protection.
- Full-face coverage helps to protect eyes and face from heat, spark, spatter, flying debris and harmful radiation.
- Handheld design allows quick positioning and easy manoeuvrability.
- Suitable for general welding tasks with common machines such as arc (MMA) and MIG welders.

- Perfect for home workshops, auto repair shops, or construction sites.
- Made in Poland.
