

1/2" HEX SOCKET 13MM BLACK LINE

Brand: AWTOOLS
Reference: AW38213BL
EAN: 5903678612429

60g
WAGA

KEY FEATURES

- Made of hardened and tempered CrV steel with a satin-plated finish.
- Rounded angle profile allows to unscrew damaged screws and protects the shape of the screw head against deformation.
- Knurled ring provides extra grip and bearing hole provides solid connection to the tool.
- Engraved size marking for easy identification.
- Useful for unscrewing hexagonal screws and nuts.
- Designed to be mounted on socket wrenches or 1/2" socket extensions.
- Suitable for a wide range of applications including automotive repair, machinery maintenance, and general mechanical work.

TECHNICAL DATA

- Type: hex.
