

PVC WELDING MACHINE SET 1500W 16-63MM

Brand: AWTOOLS
Reference: AW05000
EAN: 5903041033578

4.4kg
WAGA

KEY FEATURES

- Features a durable, heat-resistant steel housing with a powder-coated finish, ensuring long-lasting performance even under demanding conditions.
- Equipped with a powerful heating plate that reaches optimal welding temperatures quickly and maintains stability for consistent joints.
- Built-in temperature controller with an integrated thermostat enables precise, accurate adjustment of the operating temperature.
- ON/OFF switch with an indicator light provides simple, safe, and user-friendly operation.
- Interchangeable head dies with a Teflon coating prevent material sticking and enhance durability by protecting against wear.
- Features a heat-insulated handle for comfortable grip and a sturdy support stand for maximum stability during operation.
- Designed for welding plastic pipes and fittings (PE, PP, PVC).
- Ideal tool for water supply installations and central heating systems.

TECHNICAL DATA

- Voltage: 230.
- Power input: 750/ 1500.
- WTemperature range: 0-300°C Die heads: 16, 20, 25, 32, 40, 50, 63mm.
- Protection class: IIP rating: IP20.

- Weight: 4.4kg.
- Set contains: 7x die heads1x pipe cutter1x gloves1x screwdriver1x alley key1x measuring tape1x metal case SHOP AT EMAST.PL.
