KEY FEATURES

- Made from abrasive polyester-cotton cloth flaps, resin-bonded with aluminium oxide (corundum grit) for reliable and consistent performance.
- Flaps are securely mounted on a durable fibreglass backing pad, reinforced with a chrome-plated metal centre for added strength and stability.
- Angled design improves access and control when working in tight or hard-to-reach areas.
- Suitable for a wide range of applications.
- Performs effectively on ferrous and non-ferrous metals, as well as plastics and wood.
- Designed for compatibility with 125 mm angle grinders featuring a 22.23mm bore.
- Offers versatility for both professional and DIY use.
