

HARD POLISHING SPONGE W/ M14 THREAD 180MM

Brand: AWTOOLS
Reference: AW57132
EAN: 5903041038047

120g
WAGA

KEY FEATURES

- Made of a combination of polyurethane foam and synthetic resin coating, securely fixed to a plastic backing pad.
- Designed for polishing work and for buffing out the varnish finish.
- Sponge structure allows the water to retain inside, which receives heat from the polished surface.
- Works well with low-abrasion polishing pastes, waxes, and milks to achieve a perfect finish and long-lasting shine.
- Compatible with a variable speed angle grinder or sander/ polisher with an M14 thread.
