

ANALOGUE BATTERY LOAD TESTER 6/12V

Brand: AWTOOLS
Reference: AW16201
EAN: 5903678609009

12V
LI-ION

KEY FEATURES

- Tests lead-acid batteries.
- Designed for automotive use.

- Durable, ventilated metal housing.
- Easy to read analogue display.
- Does not require any additional power source.
- High capacity battery clamps.
- Tests battery, alternator and starter motor.

TECHNICAL DATA

- Type: analogue.
- Power: 6/ 12.
- VRated current: 100.
- ATest time: 10s/ 5min. Voltage range: 0-16.
- VCCA Battery capacity: 200-1000.
- Working temperature range: 0-40°CStorage temperature: 0-55°C
- Cable length: approx. 38 cm.
- Weight: (net): 1.2 kg.
