MM

210g
WAGA

KEY FEATURES

- Blades are made of carbon steel, heat-treated and ground-sharpened.
- Lower blade with polished finish for precise cuts.
- Curved head design enables easy access, greater reach, and reduces wrist fatigue.
- Contoured aluminium handles coated with non-slip PVC material for a firm grip.
- Geared mechanism amplifies force to make cutting easier.
- Spring-loaded action automatically opens the blades after each cut.
- Thumb lock ensures safety when not in use.
- Designed for pruning branches, stems, flowers, and shrubs.

TECHNICAL DATA

- Material: #50 steel.
- Size: 200mm.
- Cutting diameter: 10mm.
- Cutting angle: 45°.
- Weight: 210g.
