KEY FEATURES

- Blades are made of carbon steel, heat-treated and ground-sharpened.
- Non-stick PTFE (teflon) layer on the upper blade to reduce friction during cutting.
- Lower blade with chrome-coated finish for corrosion resistance.
- Curved head design enables easy access, greater reach, and reduces wrist fatigue.
- Ergonomically twist designed aluminium handles coated with non-slip soft material for a firm grip.
- Geared mechanism amplifies force to make cutting easier.
- Spring-loaded action automatically opens the blades after each cut.
- Thumb lock ensures safety when not in use.
- Designed for pruning branches, stems, flowers, and shrubs.

TECHNICAL DATA

- Steel: #50.
- Size: 215mm.
- Cutting diameter: 15mm.
- Cutting angle: 45°.
- Weight: 300g.
