WAGA

KEY FEATURES

- Blades are made of carbon steel, hardened, and ground.
- Non-stick PTFE (teflon) layer on the upper blade to reduce friction during cutting.
- Chrome coated on the lower blade.
- The ratchet mechanism provides a gradual cut into the branch.
- Long arms allow for pruning trees and tall shrubs.
- Ergonomic aluminum handles coated with non-slip TPR material.
- Perfect for pruning branches, limbs, and shoots.
- Plastic blade holder for safe storage.

TECHNICAL DATA

- Steel: #50.
- Size: 760mm.
- Cutting diameter: 45mm.
- Cutting angle: 45°.
- Weight: 1.450g.
