

ELECTRIC FAN HEATER 9KW/ BLACK LINE

Brand: AWTOOLS
Reference: AW85703BL
EAN: 5903678617400

9.6kg
WAGA

KEY FEATURES

- Housing made of steel sheet with a black powder coated finish, mounted on a robust tubular frame for stability.
- Heating parts made of stainless steel and copper alloy.
- Equipped with power adjustment switch, temperature adjustment switch and a cooling function.
- Built-in thermostat ensures constant temperature and protects against overheating.
- Designed for heating or drying purposes.

- Can also be used a fan on hot days where only air circulation is required.

TECHNICAL DATA

- Model: HE9.
- Power input: 400~50.
- Power output: 9 k.
- WMin. power input: 4.5 kW – 4500.
- WPower settings: 3 modes.
- Heating output: 52/4500/9000.
- WHeating power: 3870 – 7740 kcal/h.
- Air flow: 1198 m3/h.
- Max. BTU output: 15354 – 30708 btu/h.
- Heating area: 80m2.
- Temperature range: -10°C +25°CThermostat control: 80°CRated current: 13.
- AThermal fuse: 16.
- AProtection class: IProtection type: IP24.
- Dimensions: 355 x 300 x 490 mm.
- Weight: 9.6 kg INSTRUCTION MANUAL.
