KEY FEATURES

- Housing made of steel sheet with a black powder coated finish.
- Stainless steel combustion chamber with fan cooling.
- Heating parts made of stainless steel and copper alloy.
- Equipped with electronic spark ignition.
- Built-in thermostat ensures constant temperature and protects against overheating.
- Flue system allows the fumes to escape which creates a cleaner dry heat which is ideal for confined spaces or areas with limited ventilation.
- Integrated insulated carry handle and wheels for mobility.
- Suitable for warming well ventilated warehouses and large workshop areas, construction & building sites and drying applications.

TECHNICAL DATA

- Model: HD30.
- CPower output: 30 k.
- WPower input: 220-240V~50.
- Speed: 2800 rpm.
- Thermal fuse: 16.
- ARated current: 1.1.
- Fuel: type: diesel/ kerosene.
- Fuel consumption: 2.4 kg/h.
- Max. BTU output: 102360 btu/h.
- Tank capacity: 50.
- LAir pressure: 0.31 bar.
- Protection class: IThermostat control: 75°CTemperature range: -15°C +40°CAir flow: 793 m3/h.
- Heating area: 200-300 m2.
- Working time: 17h.
- Protection type: IPX4.
- Dimensions: 1045 x 465 x 505 mm.
- Weight: 26.5 kgINSTRUCTION MANUAL.
