

MACHINE TAP HSS M6X1.0 BLACK LINE

Brand: AWTOOLS
Reference: AW20274BL
EAN: 5903678622947

20g
WAGA

KEY FEATURES

- Made of hardened high-speed steel.
- Straight fluted tap pulls the chips out of the hole toward the tap shank to prevent jamming and breaking the tap.
- Designed for cutting internal threads in holes at high speeds with machine tools such as CNC lathes, milling machines and drill presses.
- Ideal for routine maintenance, repair work and for rethreading.
- Suitable for processing steel, metal, bronze, copper, brass and hard plastics.

TECHNICAL DATA

- Size: M6 x 1,0mm.
- Weight: 20 g.
