

DIGITAL MULTIMETER FULL-SMART

Brand: AWTOOLS
Reference: AW17545
EAN: 5903678624446

180g
WAGA

KEY FEATURES

- Offers a wide range of testing functions, including AC/DC voltage detection, frequency measurement, resistance testing, and more.
- Rubber housing protects against damage.
- Comes with LCD display with blue backlight, built-in flashlight, automatic range function, measurement hold function and circuit continuity test.
- SMART technology allows to recognize the measured parameter itself and automatically adjusts the measurement range.
- NCV function enables non-contact voltage detection.
- Easy to use thanks to FULL-SMART technology.
- Useful for diagnosing and detecting faulty components within electrical circuits.
- Set includes test probe.

TECHNICAL DATA

- Total length: 200mm.
- AC/DC voltage: 600.
- VCapacity: 4m.
- FFrequency: 4.
- Resistance: 40.

- MΩPower supply: 2x.
- Weight: 180g.
