KEY FEATURES

- Made of hardened and tempered CrV steel, with a corrosion-resistant chrome plating and a polished finish.
- Combines an open-ended spanner on one end with a ring spanner on the other.
- Both ends are offset from the shaft at a 15-degree angle to provide better clearance.
- With 72 teeth and a 5° action arc, it delivers extreme torque, and the flex-head enables work in hard-to-reach places.
- Clear size markings for quick identification.

- Ideal for tightening or loosening bolts and nuts.
- Used in mechanical work and automatic repairs.
