

SEMI-AUTOMATIC WELDING MACHINE SPEEDLINE MIG AWT-200

Brand: AWTOOLS
Reference: AW50550BL
EAN: 5903678624644

19kg
WAGA

KEY FEATURES

- Robust housing made of powder-coated sheet steel.
- Compact and lightweight design with carry handle.
- LCD display, rotary knob, transport wheels, LPG cylinder bottom base, over current protection and overheating protection.
- Welding functions: MIG/MAG, FLUX, MMA, carbon steel, stainless steel, alloy steel, cast iron and aluminum.
- Comes with integrated wire feeder that allows to load a spool up to 5 kg.
- Suitable for workshop repair work and outdoor services.

TECHNICAL DATA

- Supply voltage: 230V; 50Hz (1ph).
- Idle voltage: 56.

- V Welding current: 20-200A Duty cycle at 40°C EN 60974-1 170A@60%; 130A@100% Electrode diameter: 1.6-4 mm.
- Protection class: IP21.
- Dimensions: 68x32x48 cm.
- Weight: 19 kg.
- Set includes: 1x welding cable with electrode holder 1x ground cable with ground terminal 1x welding shield 1x welding hammer/ wire brush 1x cored wire.
