

MINI POINTED SHOVEL/ FIBREGLASS HANDLE & D-GRIP 16X20CM

Brand: AWTOOLS
Reference: AW00064
EAN: 5903678625689

750g
WAGA

KEY FEATURES

- Head made of hardened steel, with powder-coated hammer effect finish.
- Round pointed blade slices easily through small roots and soil.
- Upper plate allows to apply foot pressure to push the blade into the soil.
- Plastic shaft reinforced with fiberglass, secured with a galvanised sleeve and a rivet.
- Features a D-shaped plastic handle for a better grip.

- Perfect for earthworks where a standard shovel is too big.
- Suitable for digging up soil and transplanting plants, as well as moving loose materials such as soil, sand and gravel.

TECHNICAL DATA

- Working width: 160x200x370 mm.
- Total height: 680 mm.
- Weight: 750g.
