

3-IN-1 SUBMERSIBLE CLEAN & DIRTY WATER PUMP W/ FLOAT SWITCH 1100W

Brand: AWTOOLS
Reference: AW85027
EAN: 5903678627720

6.8kg
WAGA

KEY FEATURES

- Housing made of impact-resistant plastic.
- Built-in float switch automatically starts and stops the pump depending on the water level.
- Thermal cut out mechanism prevents overheating to prevent damage.
- Universal connection adapter allows the connection of hoses with different diameters.
- Mechanical seal and a watertight cable system for extra water protection.
- Offers 3 operating modes that can be quickly adjusted between clean water, dirty water and low water modes by simply changing the base.
- Ideal for garden irrigation or draining dirty water from pools, ponds, cellars, and flooded basements.
- Great tool for home, agricultural and industrial use.
