

STICK WELDING ELECTRODE HOLDER 500A

Brand: AWTOOLS
Reference: AW50105
EAN: 5903678601942

220g
WAGA

KEY FEATURES

- Clamping type construction made of brass.
- Plastic, spring loaded handle for quick electrode replacement.
- Holder is completely insulated, thus ensuring complete safety for the operator.
- Resistant to mechanical damage and high temperatures.
- Allows manual welding in all positions.
- Designed for stick welding with coated electrodes.

TECHNICAL DATA

- Overall length: 240mm.
- Welding method: MMA
- Current capacity: 500.
- Electrode size: 4.0-8.0mm.
- Weight: 220g.
