

CURVED JAW LOCKING MORSE PLIERS 250MM

Brand: AWTOOLS
Reference: AW31202
EAN: 5903678604714

560g
WAGA

KEY FEATURES

- Made of forged CrV steel, with chrome-plated finish.
- Curved jaws suitable for gripping round and flat workpieces.
- Self-tightening lower jaw allows for proper gripping of the workpiece, ensuring maximum grip without slipping or sliding.
- Release mechanism with safety lock allows easy opening of the jaws and at the same time protects against accidental release.
- Knurled screw for precise adjustment of clamping width and clamping force.
- Built-in welding wire cutter.
- Suitable for hydraulic, welding, and mechanical work.

TECHNICAL DATA

- Weight: 560g.
